

Sports Structure Supply

Project: Colchester Rugby Club

In 2014 here at Towermaster we celebrated our 50th year in business - having been established in 1964 by industry professionals, we are now globally recognised for our consistent high quality, design, manufacturing and customer service. Over the last fifty years we have worked hard on a variety of projects, more recently including the supply of lighting columns for two of Colchester Rugby Club's pitches.

The products which were supplied were both the **medium duty static column** and the **manual base-hinged column** which was chosen for its ease of maintenance due to the fact that it can easily be raised and lowered by a single person.

For more information on the products supplied please visit our website at www.towermaster.co.uk or call a member of our sales team on 01376 320100.
